

EXPERIENCE

MARS

FAST FACTS

Planet type: Solid, terrestrial, rocky

Distance from the sun: ~228 million km

Distance from Earth: ~78,340,000 km

Revolution (1 year): 687 days

Rotation (1 day): 24.6 hours

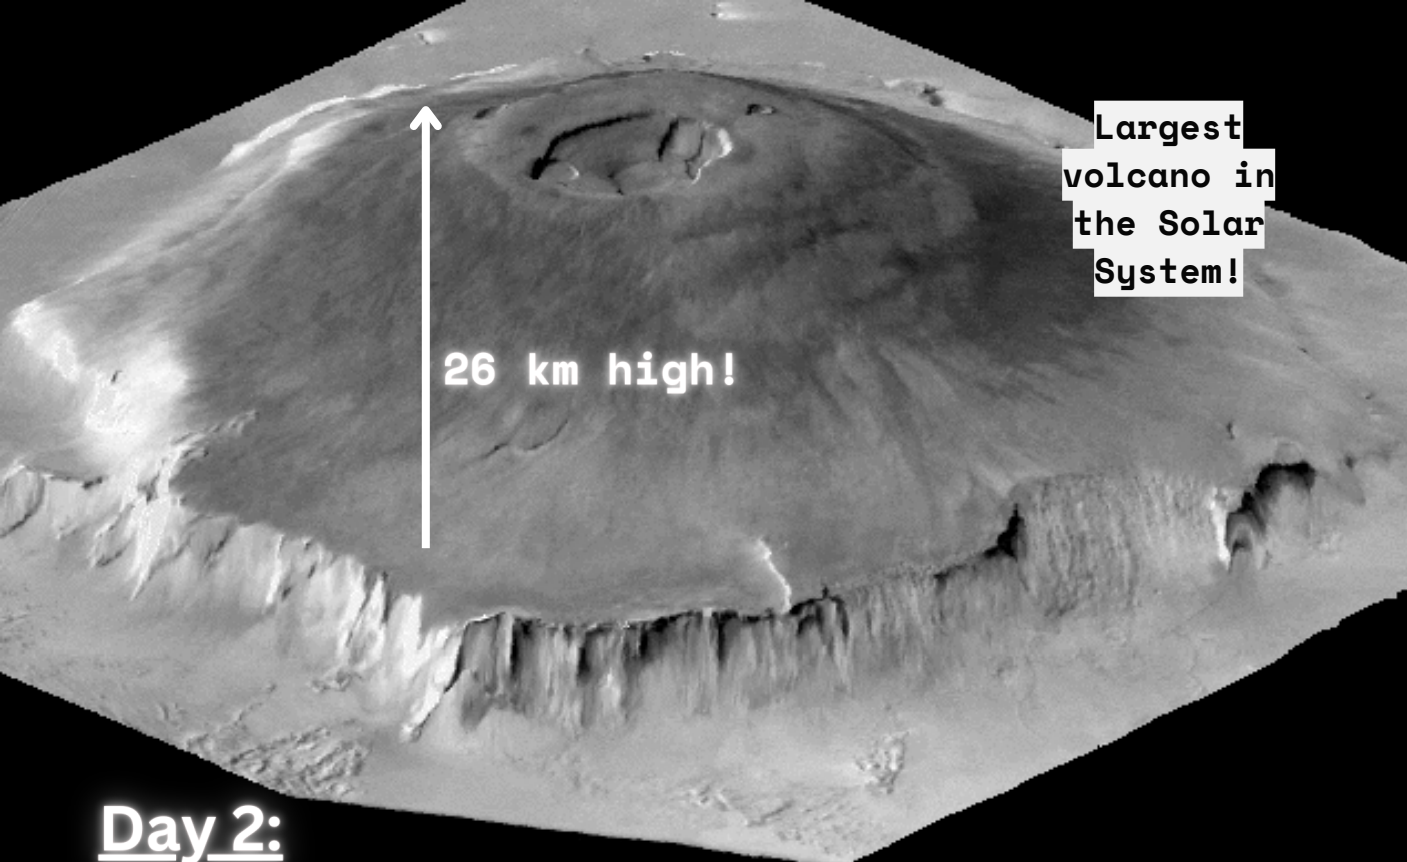

Satellites: Phobos, Deimos

Temperature: -153 °C to 20 °C

Day 1:

See the view of the red planet from your window and take in the breathtaking Martian landscape.

Iron minerals in the Martian soil oxidize, or rust, causing the soil and atmosphere to look red.

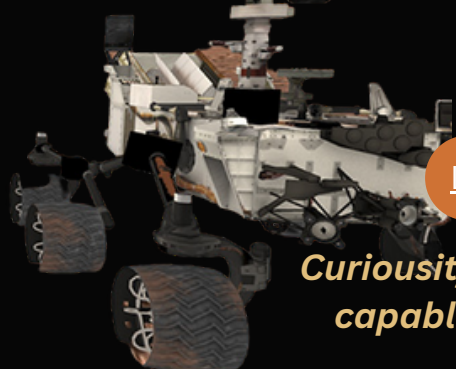

Day 2:

Explore the Martian landscape, Olympus Mons is a must-visit! It's three times taller than Earth's Mt. Everest with a base the size of the state of New Mexico.

Day 3:

Visit Valles Marineris, a large canyon system as long as the United States. Venture through the geology and history of Mars with expert guides.

[LEARN MORE](#) →

Curiosity was the largest and most capable rover ever sent to Mars

Day 4:

Tour Mars bases and interact with scientists and researchers conducting research on Mars to see how humans live and work on the Red Planet.

What Our Travellers Have To Say

This trip was truly unforgettable! I have such a deeper appreciation for humanity's space exploration efforts. Highly recommend Ticket to Space!
